ED THOMAS MATTHEW CHIN

INFORMATION TECHNOLOGY STUDENT | BEGINNER WEB DEVELOPER

09304486284
edthomas.matthewchin20@gmail.com
Philippines

PROFILE

Information Technology student learning the fundamentals of web development and software projects. Has beginner-level practice creating website interfaces and application features using HTML, CSS, JavaScript, and React, along with introductory backend and database work. Eager to improve through practice, feedback, and real-world learning opportunities.

SKILLS I AM LEARNING

Web Development	HTML, CSS, JavaScript, React, JSX, Tailwind CSS
Backend & Databases	Introductory Node.js, Express, PHP, MySQL, MongoDB/Mongoose, JSON data storage
Tools	Git, GitHub, VS Code, Figma, Vercel, XAMPP, phpMyAdmin
Topics Practiced	Responsive layouts, frontend/backend connection, basic authentication flows, introductory web security concepts

PRACTICE & SCHOOL PROJECTS

VOTARA — Online Voting System
A learning project involving React pages for student and administrator workflows. Practiced building interface components, registration/login flows, election and candidate management screens, and backend/data-storage integration.

Personal Portfolio Website
A personal learning project built with React and Tailwind CSS. Practiced responsive sections, project cards, animations, social links, and deploying updates through GitHub and Vercel.

XSS Training Lab
An educational practice project exploring how web forms handle user input, safer text output, and introductory cross-site scripting prevention.

EDUCATION

Western Institute of Technology — Information Technology student

Currently studying. Dates and additional academic details not provided.

GOAL

Seeking opportunities to build practical IT skills, learn from experienced people, and contribute as a student or beginner to web development and technology projects.
